EDUCATION

2022-2026

Bachelor of Science (Design and Computer Science)
University of Illinois Chicago, USA

Relevant Coursework:
Data Structures, Software Development, UI/UX Design, Typography, Software Design, Creative Coding, Program Design, Mobile App Design, Design Photography

Achievements:
Dean's List

WORK EXPERIENCE

2026 - PRESENT

Freelance Designer
-Delivered motion graphics and front-end animation integration for an app client, embedding custom animation logic directly into the codebase
-Led a full website redesign for an early-stage startup, reworking the visual identity and layout to match the product's evolving goals

JAN - MAY 2026

UI/UX Intern
AI Soft
-Created a visual identity for a web application that curates an optimized learning experience in higher-ed
-Established and iterated on design systems, specifically typography guidelines, iconography, and wireframes

2022 - 2026

Kidtown Daycare Associate
Midtown Athletic Club
-Ensure the safety of children aged 8 weeks to 12 years in a childcare setting

SKILLS

DESIGN TOOLS: Adobe Creative Suite, Figma, Webflow, Framer

OTHER TOOLS: Google/Microsoft Software, Visual Studio Code, GDB, Valgrind, Git/Github, JavaFX

PROGRAMMING LANGUAGES: C/C++, Python, Java, F#, SQL, Go, Javascript, HTML, CSS

PROJECTS

PYXL. - PHOTO DISTORTION WEB APPLICATION

Designed/developed a full-stack web app enabling real-time image manipulation using a custom filter engine.
-Engineered a "LENS" processing mode with 50+ distortion algorithms
-Built and scaled a public submission archive housing 300+ user-generated assets including data structures for storage, retrieval and display
-Designed a responsive UI/UX system with custom motion design optimized across mobile and desktop, iterating on user flows based on user research and usability testing
-Printed posters, booklets, flyers, and other print media to establish a clear visual identity for the project

STUDIO TERRA - VISUAL IDENTITY/PRODUCT DESIGN

Led creative direction for a self-directed design studio, delivering an end-to-end brand and physical product system for a sustainable plant care line
-Defined a comprehensive visual identity system and documented brand guideline framework
-Directed product development from concept to a physical prototype
-Designed/developed a website for the studio and directed/shot studio quality product photography

A7YPE - TYPOGRAPHY MINIGAME EXPERIENCE

Designed and developed a web-based minigame collection built from typographic glyphs and motion, with a reusable animation system, and a complete, scalable interface for desktop and mobile breakpoints
-Directed the full visual identity within Figma and the Adobe Creative Suite
-Designed a results screen using individually generated SVG digit glyphs for pixel-exact alignment
